Rights & Access

The contents of the Library of Congress Farm Security Administration/Office of War Information Black-and-White Negatives are in the public domain and are free to use and reuse.

Credit Line: Library of Congress, Prints & Photographs Division, Farm Security Administration/Office of War Information Black-and-White Negatives.

For information about reproducing, publishing, and citing material from this collection, as well as access to the original items, see: [U.S. Farm Security Administration/Office of War Information Black & White Photographs - Rights and Restrictions Information](#)

More about [Copyright and other Restrictions](#)

For guidance about compiling full citations consult [Citing Primary Sources](#).

- **Rights Advisory:** No known restrictions. For information, see U.S. Farm Security Administration/Office of War Information Black & White Photographs https://www.loc.gov/rr/print/res/071_fsab.html
- **Reproduction Number:** LC-USF33-002021-M1(c.2) (b&w film nitrate neg.) LC-DIG-fsa-8a06957 (digital file from original neg.)
- **Call Number:** LC-USF33- 002021-M1(c.2) [P&P] LOT 1658 (corresponding photographic print)
- **Access Advisory:** ---

Obtaining Copies

If an image is displaying, you can download it yourself. (Some images display only as thumbnails outside the Library of Congress because of rights considerations, but you have access to larger size images on site.)

Alternatively, you can purchase copies of various types through Library of Congress Duplication Services.

1. **If a digital image is displaying:** The qualities of the digital image partially depend on whether it was made from the original or an intermediate such as a copy negative or transparency. If the Reproduction Number field above includes a reproduction number that starts with LC-

[Skip to main content](#)

DIG..., then there is a digital image that was made directly from the original and is of sufficient resolution for most publication purposes.

2. **If there is information listed in the Reproduction Number field above:** You can use the reproduction number to purchase a copy from Duplication Services. It will be made from the source listed in the parentheses after the number. If only black-and-white ("b&w") sources are listed and you desire a copy showing color or tint (assuming the original has any), you can generally purchase a quality copy of the original in color by citing the Call Number listed above and including the catalog record ("About This Item") with your request.
3. **If there is no information listed in the Reproduction Number field above:** You can generally purchase a quality copy through Duplication Services. Cite the Call Number listed above and include the catalog record ("About This Item") with your request.

Price lists, contact information, and order forms are available on the [Duplication Services Web site](#).

Expect Delays in Service of Nitrate Negatives

Reproductions of all types are available, but Duplication Services anticipates an 8-10 week turnaround in completing orders, as all negatives must be reproduced at their off-site, cold storage facility.

Clues that an FSA/OWI/OEM image may be affected are:

Medium field says "1 negative : nitrate" OR

Reproduction Number field begins with: LC-USF33-

If either is the case, you may wish to consult with Prints and Photographs Division reference staff (202-707-6394). In certain instances, duplicate negatives are available for copying.

Access to Originals

Please use the following steps to determine whether you need to fill out a call slip in the Prints and Photographs Reading Room to view the original item(s). In some cases, a surrogate (substitute image) is available, often in the form of a digital image, a copy print, or microfilm.

1. *Is the item digitized? (A thumbnail (small) image will be visible on the left.)*

- **Yes, the item is digitized.** Please use the digital image in preference to requesting the original. All images can be viewed at a large size when you are in any reading room at the Library of Congress. In some cases, only thumbnail (small) images are available when you are outside the Library of Congress because the item is rights restricted or has not been evaluated for rights restrictions.
As a preservation measure, we generally do not serve an original item when a digital image is available. If you have a compelling reason to see the original, consult with a reference librarian. (Sometimes, the original is simply too fragile to serve. For example, glass and film photographic negatives are particularly subject to damage. They are also easier to see online where they are presented as positive images.)
- **No, the item is not digitized.** Please go to #2.

[Skip to main content](#)

s Advisory or Call Number fields above indicate that a non-digital surrogate exists, such as or copy prints?

- **Yes, another surrogate exists.** Reference staff can direct you to this surrogate.
 - **No, another surrogate does not exist.** Please go to #3.
3. If you do not see a thumbnail image or a reference to another surrogate, please fill out a call slip in the Prints and Photographs Reading Room. In many cases, the originals can be served in a few minutes. Other materials require appointments for later the same day or in the future. Reference staff can advise you in both how to fill out a call slip and when the item can be served.

To contact Reference staff in the Prints and Photographs Reading Room, please use our [Ask A Librarian](#) service or call the reading room between 8:30 and 5:00 at 202-707-6394, and Press 3.
